Crickett – I met her and vanning friends at her clubs camp site at the American 25th Truckin' nationals at La Plata, Maryland and she and I spoke of van stuff, she was wearing a patch over one eye and was heavily involved in the internet of vanning and gave me a T shirt screen to bring home and still have it, has a side shot of a yellow '71 Ford Econoline with logo and some months after my return to New Zealand I learnt of her passing and felt sad of her loss in our global family of vanners.

Kind regards,

Guy Partridge of New Zealand.
