“Little John”

L.J. was already a member of Midwest Vans LTD. When I joined. We were in the Chicago West Chapter. At first I was surprised to see the irreverence he had to put up with, I figured that since he had a breathing problem, and he was slight of build, that we should be somewhat easy with him, but when we were playing around, he was right there with us, and I found him to be tough as nails, always ready. He served as the Chairman of Chicago West Chapter, and was not shy about keeping us in line. He was a cool vanner. While we were at the Nat's in Colorado, we heard that one of the vanners from the east Coast had a breathing problem, and was without any med's or breathing machines, so when L.J. was called to see if he could help, it turned out the vanner was going to go to the hospital, and the vanners were going to drive him there, but he couldn't breath, and had no equipment to help him, so L.J. gave him his breathing equipment (he couldn't breath very well in the high altitude either). When they returned L.J. equipment the first question out of his mouth was is the other guy O.K? He didn't know the other vanner, but he was willing to help. When he found out that the other vanner was O.K. so was L.J. He is still missed. The spunky little tiger.

Any additio
